Precision Engineering
and Consultancy Services

Remember X-Actium for your Precision Engineering Needs

Remember X-ACTIUM Engineering and Consultancy Services

Welcome to X-ACTIUM

Precision Engineering and Sheet Fabrication Specialists

WHO WE ARE?

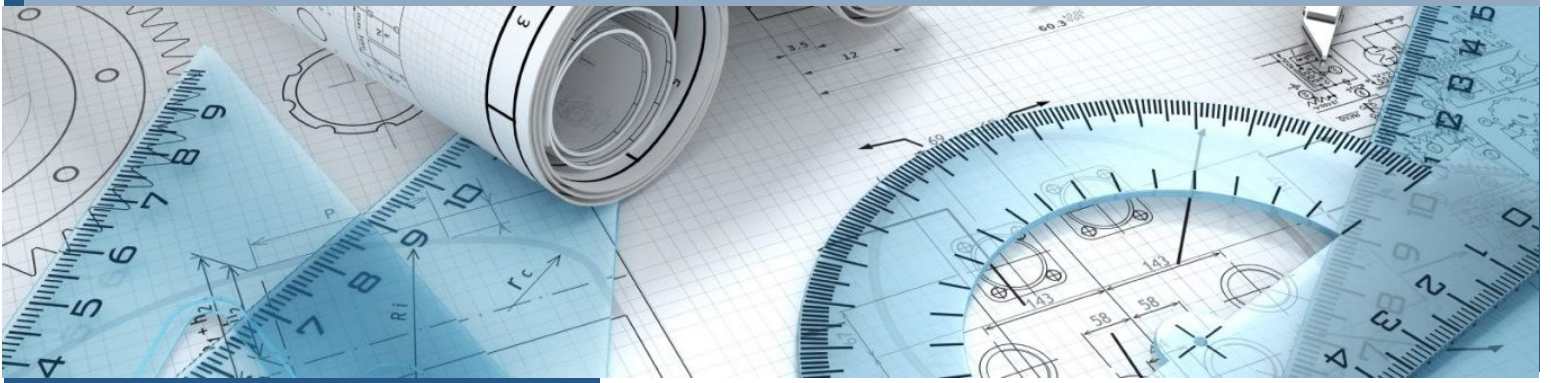

X-Actium is a Precision Engineering and a mechanical fabrication specialist headquartered in London, England, UK. We proudly bring a variety of expertise from the world's leading industry professionals.

X-Actium while specialising in aerospace, oil and marine parts, produce an array of products from basic sheet metal work to ducting and Flue systems for HVAC and other industries.

We work with a variety of materials, from fine metals and alloys to aluminum and plastics to produce bespoke and intricate parts for different customer needs. We currently work within, Marine, Oil and Gas, Aerospace, Automotive, Energy and Rail sectors. We are always happy to help with Ad-hoc fabrications and one off productions

Remember X-Actium for your Precision Engineering Needs

INDUSTRIES WE WORK IN

- MARINE ENGINEERING
- AEROSPACE
- OIL, GAS & ENERGY
- RAIL & INFRASTRUCTURE
- HVAC/R
- AUTOMOTIVE

SERVICES YOU EXPECT

- UK BASED MANUFACTURE
- PRODUCT CONSULTANCY
- EXPERIENCED ENGINEERS
- FAST TURNAROUNDS
- LOCAL MANUFACTURING
- EUROPE-WIDE SHIPPING
- CONTRACT MANAGEMENT
- SHEET METAL FABRICATION
- PRODUCT ENHANCEMENT

DID YOU KNOW?

We offer FREE Impartial Advice?

We don't just make parts or bespoke products, we can help you design them and manufacture them. With ever changing technology, don't let outdated methods hold you back. To find out more contact us.

With our state-of-the-art facilities and experienced team of engineers and technicians, we specialize in delivering custom solutions tailored to meet your exact specifications. Feel free to send us a brief and we will come back to you.

WHY CHOOSE X-ACTIUM?

Our industry professionals led customer focused business has a long tradition in the industry. It was founded on the teachings from Manohar Singh in the Late 70's.

So we bring outstanding customer service and pride ourselves on our guarantee that all of our clients are 100% satisfied.

This is backed by an unlimited array of Testimonials and extensive feedback from clients not just here, at home in the UK but in Europe and beyond.

Partner with X-Actium today and experience the difference that we can make to your needs.

Let us be your trusted partner in driving success and innovation in your industry.

Contact us now to discuss how we can help you meet your manufacturing needs and increase the bottom line.

MARINE ENGINEERING

With a passion for innovation and a dedication to excellence, X-Actium specialises in providing cutting-edge engineering services tailored specifically for the maritime industry.

At X-Actium, we understand the unique challenges and complexities of marine environments. That's why our team of experienced engineers and naval architects are equipped with the expertise and creativity needed to tackle even the most demanding projects. Our commitment to quality extends beyond water.

AEROSPACE

X-Actium is a leading provider of aerospace engineering solutions. We are committed to pushing the boundaries of what's possible in the skies and beyond. We employ a team of world-class engineers and scientists who understand the unparalleled demands of the aerospace industry.

That why we dedicated to designing and developing cutting-edge products drive the progress of flight. To find our more why not contact us today.

OIL AND GAS

As a trusted partner in the oil and gas sector, our commitment to innovation allows us to provide comprehensive solutions to meet the challenges of the energy industry.

X-Actium's consultants understand the critical importance of efficiency, reliability, and safety in oil and gas operations. They can help to optimize production, minimize downtime, and maximize profitability, while being able to accommodate a wide range of services designed to meet the diverse needs of the entire oil and gas value chain. Partner with us today and let us help you achieve your goals.

RAIL AND INFRASTRUCTURE

As a preferred provider of railway components for our growing client base, we're dedicated to assisting the world's trains running smoothly and efficiently.

To meet the rigorous demands of rail operators worldwide, from locomotive components and rolling stock parts to track infrastructure and signaling systems, we offer a comprehensive range of products designed to enhance safety, reliability, and efficiency across every aspect of rail transportation. To learn about our capabilities, why not schedule a call with us NOW via the contacts us page.

HVAC / R

Are you ready to supply the backbone of modern comfort and functionality? Introducing our HVAC Parts Production team who ensure innovation meets reliability in every component.

X-Actium's state-of-the-art manufacturing processes and unwavering commitment to quality means we craft precision-engineered HVAC parts that are essential for heating, ventilation as well as air conditioning systems. We can be trusted for exceptional quality, providing full customisation options, while ensuring we remain cost effective and provide exceptional value for service.

AUTOMOTIVE

Rev up your production line with our Automotive Parts Manufacturing team utilising X-Actium's UK based factories. We are good at what we do. Our craftsmen cater for off-the-shelf solutions and delivering bespoke manufacturing services.

At our cutting-edge facilities, we craft automotive parts that meet the meticulous industry standards. We will collaborate closely with you and ensure every detail is meticulously listened to and the products crafted to perfection. So, whether you are seeking one-of-a-kind part or custom built piece we can help.

BESPOKE ENGINEERING

If you have the Blueprints, sit back and relax. We specialise in bringing your unique visions to life with accuracy and passion. We are here to act as your go-to partner for precision engineered components.

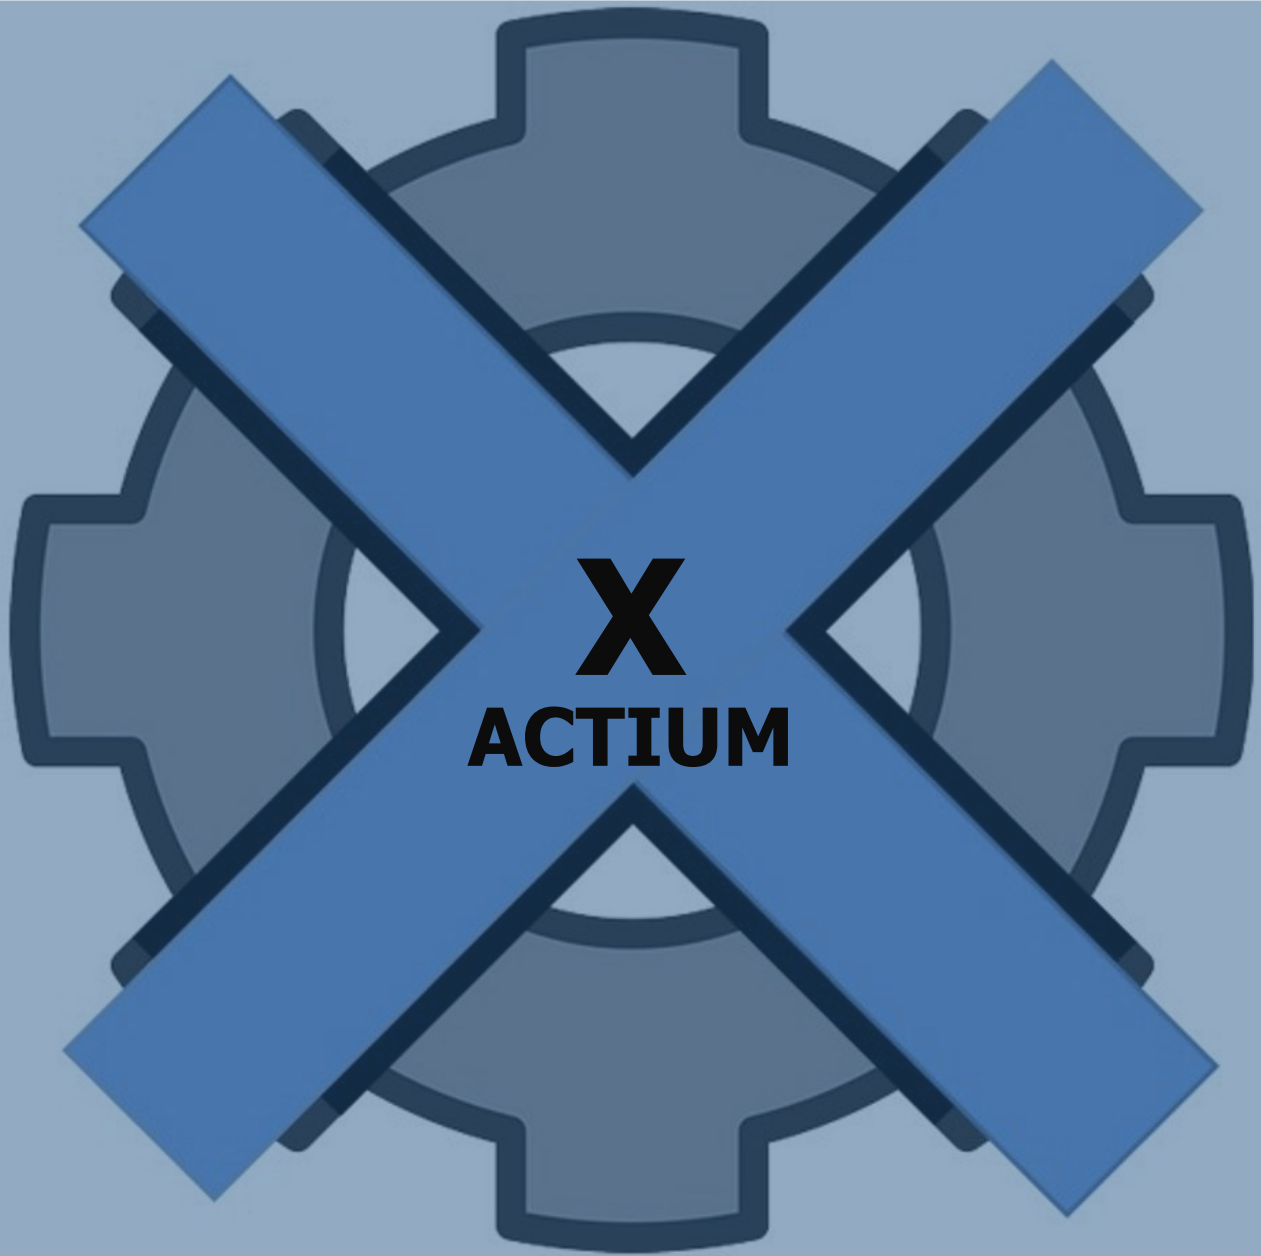

We help you drive performance, increase efficiency while ensuring safety and reliability for the road. Whether you require 1 duplicate part, a one off or complex engine components and safety systems, look no further. Trust us to drive your production needs, forward. Contact us to find out more.

TECHNICAL CONSULTANCY

To navigate customers through complexities of business, our team of experienced consultants can provide up to minute technical advice tailored to meet your unique needs. Remember us that's all we ask.
